

SAFEBACK™ PREMIUM

The Premium back support belt offers even greater protection with six high gauge spring steel stays that conform to the lower back for stability. It also features a woven elastic knit and rubber layer on the inside to hold belt in place and prevent slippage. SafeBack Premium is made with a one piece Velcro® closure to maintain a firm grasp. The sewn in suspenders are constructed to provide a perfect fit with back and front adjustable fasteners.

SAFEBACK™ VALU

The Valu back support belt is designed to offer sized back support at a cost-effective bottom line. It features four high gauge spring steel stays for stability to the low back, a rubber layer on the inside of stay pockets to prevent slippage and an elastic edge binding that stretches to conform to individual back shapes. It also includes a Velcro® closure for firm grasp and break-away suspenders.
